

North Campus Safety Walk

November 13-17

Guidelines:

Lighting – Most poles have orange stickers with black numbering. Indicate the pole number and a landmark (i.e. row 5 of M parking lot, east side of Fitz Hall, etc.). If it is a light on a building, please be as specific as possible, (Domenici West, outside of basement coffee shop, CTSC, west side of building, north of entrance, etc.).

Emergency Blue lights should be on. If not please record the pole number, or location to nearest building.

Sidewalks – In addition to being as specific as possible on the location, please state the problem (sidewalk is uneven – tripping hazard, north side is 6 inches higher than south side, etc.)

Overgrown Landscaping – In addition to noting hiding areas, please record if landscaping is covering a light.

Have a smartphone? Take a photo and send it.
