NM State Board of Finance Approves Phase II of NHT Project

As you all know, we’ve been progressing well in Phase I of the New Hospital Tower (NHT) Project. We’d like to share the exciting news that the NM State Board of Finance has approved Phase II of the NHT Project. We’d like to express our gratitude to the state for its support as we move forward in our journey toward creating the extra space we need to better serve our patients and community.

NHT Phase II will include the construction of the new parking garage and various supportive logistical structures. This work is scheduled to kick-off at the beginning of 2021. Following the completion of the new garage, the current west parking structure and UNM department buildings just west of the BBRP will be demolished to make way for the new care delivery tower. Continue to watch your email for NHT Project updates. All communications will include the subject title, “Hospital Tower Construction Update”. Thanks again for your patience and support during this time!
